

### **session 1**

Joel Parthemore. **Depression viewed from an enactive perspective: It's the context, stupid.**

Dean Petters. **Steps to a design-based understanding of depression.**

Mark McKergow. **Mind the person: Should depression be treated as a brain illness or a person disorder, and what difference would it make?**

### **session 2**

David C. Moffat. **To model learned helplessness: Is depression an irrational response, if it is generally adaptive?**

Rachel Gunn. **Everything causes depression and nothing 'causes' depression.**

Valentina Petrolini. **Environmental triggers of psychopathology: Gender and depression as a case study.**

### **session 3**

Magdalena Antrobus. **Depression, optimism, and (ir)rationality.**

Alexander Miller Tate. **De-situated minds: The role of the environment in understanding depression.**

closing panel discussion
